

Smoking Cessation Medical Coverage For Non-Supervisory Merit Employees

Medical and Prescription Drug Benefits

Smoking Cessation medical benefits for employees are not currently covered under State of Iowa (SOI) medical plans. Programs are being evaluated. Additional information from the Department of Administrative Services (DAS) will be shared when available.

In the interim, all employees can take advantage of the smoking cessation resources available from Quitline Iowa, the American Cancer Society, and the American Lung Association. Information on these resources is shown on the “Resources for All ISU Employees” page.

Over-the-Counter Smoking Aids

Over-the-counter stop smoking products are not covered under your medical and prescription drug benefit plans. However, most of these products are eligible for reimbursement for those who have elected a Health Care Spending Account.
