You are receiving this packet of information because you are enrolled in the State of Iowa’s dental insurance as a retiree.

**Dental Information**

**2017 Dental is not open to add family members**

- This year’s dental enrollment period is from October 15th – December 7, 2016. But it is not open to add previously uninsured family members.

- If you wish to make a change, you must have a qualifying event. You may obtain a Delta Dental application from either the Department of Administrative Services website - [https://das.iowa.gov/human-resources/employee-and-retiree-benefits/retirees/2016_retiree-e&cp](https://das.iowa.gov/human-resources/employee-and-retiree-benefits/retirees/2016_retiree-e&cp), from the Iowa State University Benefits Office or directly from Delta Dental by calling Delta Dental customer service at **1.800.544.0718**.

- The form with evidence of the qualifying event must be submitted to the Iowa State University Benefits Office within 30 days of the qualifying event.

**2017 Dental Premiums and Information**

- There are no changes to the benefit structure for the State of Iowa dental plan.
- For 2017, the monthly dental premiums will be:

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Single</strong></td>
<td><strong>$30.00 per month</strong></td>
</tr>
<tr>
<td><strong>Family</strong></td>
<td><strong>$78.00 per month</strong></td>
</tr>
</tbody>
</table>

If you do not want to make any changes to your dental insurance, **NO action is required by you**.

- The State of Iowa dental plan has only single and family rates. This means that if your dental policy covers you and your spouse, you must have a family policy (unless the spouse is a former state retiree). There is no retiree plus one option.
• An eligible dependent child may be covered on your health and dental insurance coverage through the end of the calendar year in which they turn age 26. An adult child can be a student or non-student, live anywhere in the country, and could be married (dependent’s spouse is not eligible for coverage).

• A full time student over the age of 26 can be on coverage for as long as they remain a full time student, and are unmarried. Disabled children can remain on coverage as long as they are unmarried and the disability occurred before age 27, or while a full time student and covered by the dental plan continuously since eligible.

• The dental and health insurance are completely separate from one another; you can drop health insurance coverage and still remain on the State of Iowa retiree dental plan. Also being enrolled in Medicare will not affect your eligibility to remain in the dental plan. Medicare is a health insurance plan not dental insurance plan.
