4. **Review** the candidate's name, rank, and email address.
5. **Enter additions to** the position title information, if applicable:

Fields/Descriptions		
<b>Rank</b>	Pre-populated from PeopleAdmin Hiring Proposal	
<b>Administrative Title</b> This field would indicate if the faculty member will have an administrative title such as Department Chair or Dean.	<b>Administrative End Date</b> The date in which the administrative title will be completed or up for renewal.	<b>Administrative Increment</b> Use this field to delineate the amount of the listed salary due to the administrative title.

6. **Update** secondary departments.  
 If the appointment is a joint hire, select the secondary hiring academic department(s). The form can capture up to three hiring departments. Once additional department(s) is selected, the form will route through the proper approvals in those department(s)/college(s).

7. **Review** pre-populated information about the position, **such as**:
  - Pay base
  - Twelve or Nine month appointment
  - Fraction
  - Employment Terms (Full-time/Part-time)
  - Annual and Monthly Salary
  - Start Date, Appointment End Date

## Quick Reference Guide: Completing an eLOI for Non-Tenure Eligible Faculty

For **Lecturer/Senior Lecturer and Clinician/Senior Clinician** Positions: Verify appointment end date is correct.

For **Adjunct** Positions: Verify appointment end date is correct and the non-renewal date is populated. The non-renewal date indicates when the department must inform the faculty member if the appointment will not be renewed.

8. Complete **Special Conditions** of the position.

Any special conditions pertaining to the appointment or administrative appointment should be specified in this section. For example, if the candidate must earn terminal degree before start date, please indicate here.

9. Upload relevant attachments to the non-tenure eligible LOI:

- *Optional:* Draft Letter of Offer
- *Optional:* If there is an additional title, include Addendum to LOI (*for named faculty positions*)

**Note:** These are draft versions and will never be accessible to the candidate. The final versions will be uploaded later while **Extending an eLOI to the Candidate**.

10. Click **Approve** to route to the next approver (*reference **Understanding eLOI User Roles** for more information on the automatic routing process*).

The next approver will receive an email notification that a task is assigned to him/her. The eLOI will not be editable by approvers, and any changes will need to be made by the eLOI Originator. Once the form is approved by all of the required individuals and user groups, the eLOI Originator will receive an email that the eLOI is complete.

At this point, the department may reach out to the candidate to let him/her know to expect an email regarding an electronic letter of intent. Please see **Extending an eLOI to the Candidate** for more information.
